

Bevchek's beer inventory management system has the following specifications:

#### Master Control Panel (MCP)

- \* MCP Height: 7" (17.8 cm)
- \* MCP Width: 9" (22.9 cm)
- \* MCP Depth: 3" (7.6 cm)
- \* MCP Electrical: 110-240V DC Via RJ45
- \* MCP Type: Corrugated metal box; hinged front opening with key lock
- \* Number of Lines Monitored: 24 per MCP, with multiple MCP capabilities

#### Systems Monitored:

- \* Draught beer lines
- \* Liquor dispensing guns (such as Berg, K-Way & others)
- \* Wine dispensing lines

#### POS Management Software Capabilities:

- \* Aloha, Squirrel Systems, Micros, PosiTouch, Profitek, Maitre'D, Silverware, HALO, R2, Restaurant Manager, Barnet Systems, and HSI

#### Reports:

- \* Displays consolidated sales vs. poured by item on a real time basis (daily, MTD, YTD)
- \* Displays sales vs. poured variance by item on a minute-by-minute basis
- \* Displays multiple bar/unit totals on one screen
- \* Stores historical information for life
- \* Custom shift reportings
- \* Time stamped transaction reports show minute by minute transactions/pours
- \* Inventory summary by item of "on hand" products
- \* Provides average pour size on a continual basis
- \* Provides pours vs. sold
- \* Provides overpours vs. not rung in

- \* Graphical reports for slippage and off-hours
- \* Automatic email reports
